COMPUTER ASSISTED MASS APPRAISAL PROGRAM RFP ADDENDUM 1

Wythe County hereby gives notice to all potential Computer Assisted Mass Appraisal Program respondents of the following additional requirement from the County.

Reason

Multiple potential respondents have asked for clarification on the amount of data to be converted for use in the new system.

Data Conversion & Import

As noted in the original solicitation, the County's current software is a county-developed product. Electronic data for prior years is available dating back to 2002. Particularly relating to Section IV, Suggested Scope of CAMA System. Responses should include conversion of all available electronic data. Include set or "not to exceed" pricing for converting a) all available years of data and b) current year plus the three prior years.

This specification is issued November 10, 2020, and DOES NOT change the required submission date and time originally advertised.

Sign and date this sheet and include with your response. The County reserves the right to reject responses which do not include this acknowledgement.

I hereby acknowledge the receipt of this addendum and will include its requirements in my pricing and proposal.
